

PHONE FORENSICS SHEET

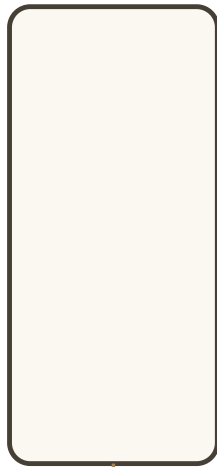

1. Label each part's mined material and WA region (write "various" where that's the honest answer). 2. Draw a line from each labelled part to its region on the map. 3. Circle the part YOUR survey vote would make more valuable — and sketch a star on its mining region.

SCREEN GLASS

material: _____
region: _____

CASING / FRAME

material: _____
region: _____

CIRCUIT BOARD

CHIP

chip material: _____

material: _____
region: _____

ANALYST'S NOTE

The part my market vote makes more valuable is _____ so the region to watch is _____.

Bonus link: one material my phone shares with a Pilbara haul truck: _____ (hint: what is the truck's body made of — and which WA ore becomes it?)
